| Features               | Flexible fiberglass rod kit is ideal to reach and pull wires over suspended ceilings in cable trays or through interior walls. Each comes in 4 ft. or 6 ft. sections, depending on finished length desired. Durable connectors allow sections to be screwed together for desired length for the job. Regular flex fishing pole kit features 1/4 in. white extra stiffness fiberglass providing added control when maneuvering wires. |
| Long Description       | Tuff-Rod Regular Flex Fishing Pole Kit, Size: 1/4 IN, 24 FT Length, White, Fiberglass Rod, Use To Reach And Pull Wires Over Suspended Ceilings, In Cable Trays Or Through Interior Walls                                                                                                                                                                                                                                             |
| Product Type           | Fishing Pole Kit, Ideal, Tuff-Rod, Regular Flex, 1/4 In Diameter                                                                                                                                                                                                                                                                                                                                                                     |
