| Description            | DATA T-CUTTER   |
| extra long description | IDEAL 45-074 DATA T-CUTTER  |
| Features               | The Data T-Cutter tool is a small and compact yet efficient hand actuated cable cutter with dual curved blades and a shearing cutting action which are recommended for cutting coax and other copper based low voltage cables. The curved blades minimize cable deformation, which helps keep the cable impedance (?) consistent during connector to cable termination, and allows cable stripping tools to work more efficiently and accurately. The jaw tip of the Data T has a flat cutting area which aides in cutting used |
