FOSHAN, GUANGDONG, CHINA

And for their product

Rechargeable Rechargeable lithium ion battery

Model/type reference: AN1AE6013

Nominal Voltage: DC 3.6V

Typical Capacity.....: 2600mAh (9.36Wh)

Version number: V2.0

Revision date: 09-Nov-2020

Prepared by Shenzhen STS Test Services Co., Ltd.

A 1/F, Building B, Zhuoke Science Park, No.190 Chongqing Road, HepingShequ, Fuyong Sub-District, Bao'an District,

Shenzhen, Guang Dong, China

The supplier identified below generated this SDS using the STS SDS template. STS did not test, certify, or approve the substance described in this SDS, and all information in this SDS was provided by the supplier or was reproduced from publically available regulatory data sources. STS makes no representations or warranties regarding the completeness or accuracy of the information in this SDS and disclaims all liability in connection with the use of this information or the substance described in this SDS.

APPROVAL OF

Any reproduction of this document must be done in full. No single part of this document may be reproduced without permission from STS,All Test Data Presented in this report is only applicable to presented Test sample.

Section 1- Identification of the Substance/Preparation and of the Company/Undertaking

Product Identifier

Product Name: Rechargeable lithium ion battery

Model No.: AN1AE6013

Other means of identification

Synonyms: None

Recommended use of the chemical and restrictions on use

Recommended Use: Rechargeable lithium ion battery

Uses advised against: No information available

Details of the supplier of the safety data sheet

Supplier Name: Aoneng Lighting Co., Ltd

Address: 1ST-3RD FLOOR, NO.2 NORTH, SHUNYUAN ROAD, WUSHA COMMUNITY, DALIANG,

SHUNDE, FOSHAN, GUANGDONG, CHINA

Manufacturer's: Shenzhen HuaGreen Technology Co., Ltd.

Address: Building B, No.8 Baoqing Road, Baolong Industrial Area, Longgang District, Shenzhen,

China

Telephone number of the manufacturer/supplier: 15814472139

Emergency Telephone Number (24h): 15814472139

E-mail address: purchasing01@huagreen.com

Section 2 - Hazards Identification

Classification

This chemical is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200) this product is an article which is a sealed battery and as such does not require an MSDS per the OSHA hazard communication standard unless ruptured. The hazards indicated are for a ruptured battery.

Skin corrosion/irritation	Category 2
Serious eye damage/eye irritation	Category 2
Skin sensitization	Category 1
Specific target organ toxicity (repeated	Category 1
exposure)	

GHS Label elements, including precautionary statements

Emergency Overview

Signal word: Danger Hazard Statements Causes skin irritation

Causes serious eye irritation

Causes serious eye irritation

May cause an allergic skin reaction

May cause cancer

This product is an article which contains a chemical substance. Safety information is given for exposure to the article as sold.

Intended use of the product should not result in exposure to the chemical substance This is a battery. In case of rupture: the above hazards exist.

Appearance Black Physical State Solid Odor Odorless

Precautionary	Obtain special instructions before use
Statements -	Do not handle until all safety precautions have been read and understood
Prevention	Use personal protective equipment as required
	Wash face, hands and any exposed skin thoroughly after handling
	Contaminated work clothing should not be allowed out of the workplace
	Wear protective gloves
	Do not breathe dust/fume/gas/mist/vapors/spray
	Do not eat, drink or smoke when using this product
Precautionary	IF exposed or concerned: Get medical advice/attention
Statements -	Specific treatment (see supplemental first aid instructions on this label)
Response	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact
	lenses, if present and easy to do. Continue rinsing If eye irritation persists: Get
	medical advice/attention
	IF ON SKIN: Wash with plenty of soap and water
	Take off contaminated clothing and wash before reuse
	If skin irritation or rash occurs: Get medical advice/attention
Precautionary	Store locked up
Statements -	
Storage	
Precautionary	Dispose of contents/container to an approved waste disposal plant
Statements -	
Disposal

Section 3 - Composition/Information on Ingredients

Chemical Name	CAS Number	Weight-%	Trade Secret
Lithium cobalt oxide	12190-79-3	37.3%	
Graphite	7782-42-5	15-20%	
Cobalt lithium manganese nickel oxide	proprietary	30-33%	
Poly(vinylidene fluoride)(PVDF)	24937-79-9	0.1-4%	
Steel,nickel and inert polymer	9003-55-8	0.5-4%	
Lithium hexaflurorphosphate(LiPF6)	21324-40-3	1-3%	
Carbon black and others	1333-86-4	0-3%	
Copper	7440-50-8	5-10%	
Aluminum	7429-90-5	1-8%	

^{*} The exact percentage (concentration) of composition has been withheld as a trade secret.

Section 4 – First-aid Measures

General Advice

First aid is upon rupture of sealed battery.

Eye contact: If symptoms persist, call a physician. Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Keep eye wide open while rinsing. Remove contact lenses, if present and easy to do. Continue rinsing. Do not rub affected area.

Skin contact: Wash off immediately with soap and plenty of water for at least 15 minutes. In the case of skin irritation or allergic reactions see a physician. May cause an allergic skin reaction.

Inhalation: Remove to fresh air. If symptoms persist, call a physician. Get medical attention immediately if symptoms occur.

Ingestion: Do NOT induce vomiting. Rinse mouth immediately and drink plenty of water. Never give anything by mouth to an unconscious person. Call a physician.

Self-protection of the first aider: Avoid contact with skin, eyes or clothing. Use personal protective equipment as required. Wear personal protective clothing (see section 8).

Other Exposure Guidelines

Vacated limits revoked by the Court of Appeals decision in AFL-CIO v. OSHA, 965 F.2d 962 (11th Cir. 1992) See section 15 for national exposure control parameters

Appropriate engineering	Engineering Measures:	
controls	Showers	
	Eyewash stations	
_	Ventilation systems.	
Individual protection	Eye/Face Protection: If splashes are likely to occur: Wear safety	
measures, such as personal	glasses with side shields (or goggles). None required for	
protective equipment	consumer use.	
	Skin and Body Protection: Wear protective gloves and	
	protective clothing. Long sleeved clothing. Impervious gloves.	
	Respiratory Protection: No protective equipment is needed	
	under normal use conditions. If exposure limits are exceeded or	
	irritation is experienced, ventilation and evacuation may be	
	required.	
	Hygiene Measures: Handle in accordance with good industrial	
	hygiene and safety practice. Do not eat, drink or smoke when	
	using this product. Take off contaminated clothing and wash	
	before reuse. Avoid contact with skin, eyes or clothing. Wear	
	suitable gloves and eye/face protection.Wash hands before	
	breaks and immediately after handling the product.	

Section 9 - Physical and Chemical Properties

	Physical state: Solid
	Appearance: Black and cylinder
Physical Properties	Color: Black
riopeities	Odor: Odorless
	Odor Threshold: No information available
Chemical Properties:	

Page 8 of 15

Property	Values	Remarks/ Method
pH	No data available	None known
Melting / freezing point	No data available	None known
Boiling point / boiling range	No data available	None known
Flash Point	No data available	None known
Evaporation Rate	No data available	None known
Flammability (solid, gas)	No data available	None known
Flammability Limit in Air		
Upper flammability limit	No data available	
Lower flammability limit	No data available	
Vapor pressure	No data available	None known
Vapor density	No data available	None known
Specific Gravity	No data available	None known
Water Solubility	Insoluble in water	None known
Solubility in other solvents	No data available	None known
Partition coefficient: n-octanol/water	0.00001	None known
Autoignition temperature	130℃	None known
Decomposition temperature	No data available	None known
Kinematic viscosity	No data available	None known
Dynamic viscosity	0.00001	None known
Explosive properties	No data available	
Oxidizing Properties	No data available	

Other Information

Softening Point	No data available	
VOC Content (%)	No data available	
Particle Size	No data available	
Particle Size Distribution	No data available	

Section 10 - Stability and Reactivity

Reactivity	No data available.	
Chemical stability	Stable under recommended storage conditions.	
Possibility of Hazardous Reactions	None under normal processing.	
Hazardous Polymerization	Hazardous polymerization does not occur.	
Conditions to avoid	None known based on information supplied.	

A 1/F, Building B, Zhuoke Science Park, No.190 Chongqing Road, HepingShequ, Fuyong Sub-District, Bao'an District, Shenzhen, Guang Dong, China Tel: +86-755 3688 6288 Fax:+86-755 3688 6277 Http://www.stsapp.com E-mail: sts@stsapp.com

Incompatible materials	Strong acids. Strong oxidizing agents. Strong bases.
Hazardous Decomposition Products	Carbon oxides.

Section 11 - Toxicological Information

Information on likely routes of exposure

intormation on likely rou			
Product Information	Product does not present an acute toxicity hazard based on known or		
	supplied information. In case of rupture:		
Inhalation	Specific test data for the substance or mixture is not available. May		
	cause irritation of respiratory tract.		
Eye Contact	Specific test data for the substance or mixture is not available.		
	Expected to be an irritant based on components. Irritating to eyes. May		
	cause redness, itching, and pain. May cause temporary eye irritation.		
Skin Contact	Specific test data for the substance or mixture is not available.		
	Expected to be an irritant based on components. Irritating to skin.		
	Prolonged contact may cause redness and irritation.		
Ingestion	Specific test data for the substance or mixture is not available. Ingestion		
	may cause irritation to mucous membranes. Ingestion may cause		
	gastrointestinal irritation, nausea, vomiting and diarrhea.		

Component Information

Chemical Name	Oral LD50	Dermal LD50	Inhalation LC50
Graphite	> 10000 mg/kg (Rat)	-	-
7782-42-5			

Information on toxicological effects	Symptoms: Erythema (skin redness). May	
	cause redness and tearing of the eyes. Itching.	
	Rashes. Hives.	
Delayed and immediate effects as well as	Sensitization: May cause sensitization of	
chronic effects from short and long-term	susceptible persons. May cause sensitization by	
exposure	skin contact.	
	Mutagenic Effects: No information available.

Other adverse effects	No information available.

Section 13 - Disposal Considerations

Waste treatment methods

Disposal methods: This material, as supplied, is not a hazardous waste according to Federal regulations (40CFR 261). This material could become a hazardous waste if it is mixed with or otherwise comes in contact with a hazardous waste, if chemical additions are made to this material, or if the material is processed or otherwise altered. Consult 40 CFR 261 to determine whether the altered material is a hazardous waste. Consult the appropriate state, regional, or local regulations for additional requirements.

Contaminated Packaging: Dispose of in accordance with federal, state and local regulations.

California Hazardous Waste Codes 141

This product contains one or more substances that are listed with the State of California as a hazardous waste.

Chemical Name	California Hazardous Waste
Copper	Toxic
7440-50-8	
Lithium Cobalt Oxide (CoLiO2)	Toxic
12190-79-3	
Aluminum	Ignitable powder
7429-90-5	

Section 14 – Transport Information

The Rechargeable lithium ion battery as stated in Appendix are made in compliance to the requirements stated in the latest edition of the IATA Dangerous Goods Regulations Packing Instruction 967 section Π such that they can be transported as a NOT RESTRICTED (non-hazardous/non-dangerous) goods. However, if those Li-Ion batteries are contained in an equipment, then it is the responsibility of the shipper to ensure that the consignment are packed in compliance to the latest edition of the IATA Dangerous Goods Regulations section Π of Packing

With regard to transport, the following regulations are cited and considered:

Instruction 967.

- The International Civil Aviation Organization (ICAO) Technical Instructions, Packing instruction 967, section II (2016-2017 Edition).
- The International Air transport Association (IATA) Dangerous Goods Regulations, Packing instruction 967, section II (57th Edition, 2016).
- Special provision 188 of the International Maritime Dangerous Goods (IMDG) Code (Amendment 37-14 Edition).
- The US Hazardous Materials Regulation 49 CRF (Code of Federal Regulations), sections 173-185 Lithium batteries and cells.
- The UN Recommendations on the Transport of Dangerous Goods, Manual of Tests and Criteria 38.3 Lithium batteries, Rev.5, Amend.2

These products are properly classified, described, packaged, marked, and labeled, and are in proper condition for transportation according to all the applicable international and national governmental regulations, not limited to the above mentioned. We further certify that the enclosed products have been tested and fulfilled the requirements and conditions in accordance with UN Recommendations (T1 – T8) on the Transport of Dangerous Goods Model Regulations and the Manual of Tests and Criteria.

Test results of the UN Recommendation on the Transport of Dangerous Goods

Manual of Test and Criteria (38.3 Lithium battery)					
No.	Test items	Test results	Remark		
T1	Altitude simulation	Pass			
T2	Thermal test	Pass			
T3	Vibration	Pass			
T4	Shock	Pass			
T5	External short circuit	Pass			
Т6	Impact / Crush	Pass			
T7	Overcharge	Pass			
Т8	Forced discharge	Pass			

Additional Requirements for air transport:

- Cells and batteries must be protected so as to prevent short circuits. This includes protection
 against contact with conductive materials within the same packaging that could lead to a short
 circuit.
- 2. Cells and batteries must be manufactured under a quality management program.
- 3. The Watt-hour rating must be marked on the outside of the battery case except those manufactured before 1 January 2009.
- 4. Cells and batteries must be packed in strong outer packagings. (applicable to PI 965 only)
- 5. Maximum number of cells per package must not be more than 8 cells. (applicable to PI 965 only)
- 6. Cells and batteries must be packed in inner packagings that completely enclose the cell or battery. To provide protection from damage or compression to the batteries, the inner packagings must be placed in a strong rigid outer packaging of one of the packaging types shown below.
- 7. Each package must be capable of withstanding a 1.2 m drop test in any orientation without (applicable to PI 965 and 966 only):
- · damage to cells or batteries contained therein;

- · shifting of the contents so as to allow battery to battery (or cell to cell) contact;
- · release of contents.
- 8. Each consignment must be accompanied with a document with an indication that:
- the package contains lithium ion cells or batteries;
- the package must be handled with care and that a flammability hazard exists if the package is damaged;
- special procedures must be followed in the event the package is damaged, to include inspection and repacking if necessary; and
- a telephone number for additional information.
- 9. Each package must be labelled with a lithium battery handling label (Figure 7.4.H).
- 10. A Shipper's Declaration for Dangerous Goods is not required.
- 11. The words "Lithium ion batteries in compliance with Section II of PI 965" must be included on the air waybill, when an air waybill is used. The information should be shown in the "Nature and Quantity of Goods" box of the air waybill. (applicable to PI 965 only)
- 12. Any person preparing or offering cells for transport must receive adequate instruction on these requirements commensurate with their responsibilities.
- 13. The equipment must be secured against movement within the outer packaging and must be equipped with an effective means of preventing accidental activation. (applicable to PI 966 only)
- 14. The maximum number of batteries in each package must be the minimum number required to power the equipment plus two spares. (applicable to PI 966 only)
- 15. The words "Lithium ion batteries in compliance with Section II of PI 966" must be included on the air waybill, when an air waybill is used. The information should be shown in the "Nature and Quantity of Goods" box of the air waybill. (applicable to PI 966 only)
- 16. Maximum net quantity of lithium ion cells must not be more than 5 kg. (applicable to PI 966 and 967 only)
- 17. Equipment must be equipped with an effective means of preventing accidental activation. (applicable to PI 967 only)
- 18. The equipment containing the cells or batteries must be secured against movement within the outer packaging and be packed so as to prevent accidental operation during air transport. (applicable to PI 967 only)
- 19. The equipment must be packed in strong outer packagings constructed of suitable material of adequate strength and design in relation to the packaging's capacity and its intended use unless the cell or battery is afforded equivalent protection by the equipment in which it is contained. (applicable to PI 967 only)
- 20. Where a consignment includes packages bearing the lithium battery handling label, the words "Lithium ion batteries in compliance with Section II of PI 967" must be included on the air waybill, when an air waybill is used. The information should be shown in the "Nature and Quantity of Goods" box of the air waybill. (applicable to PI 967 only)
