WIREMOLD®
Steel Raceway Cutting Tools

Raceway Cutters – Clean & Easy Raceway Cuts

Raceway Cutters are a clear-cut alternative to messy and noisy raceway cutters. Our portable cutting shears trim time and aggravation from your metal and nonmetallic raceway installations, making fast and easy work of any job.

A cinch to use, these new cutting tools are available for cutting both raceway base and cover. Just slide in, snip off. The clean shearing action eliminates metal chips, as well as noise and inconvenience associated with cumbersome power band saws. No mess, no buzzing, no heavy equipment to lug around.

Cutters are available for a wide range of Wiremold® Raceways.

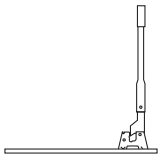

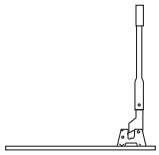

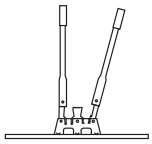

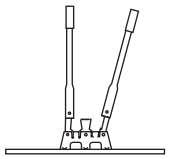

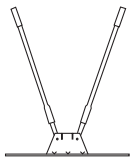

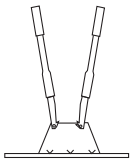

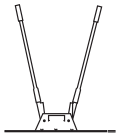

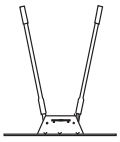

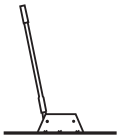

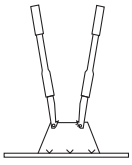

607 Base Cutter

FEATURES & BENEFITS

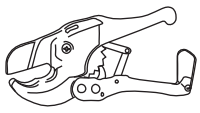

- **Simplicity, cleanliness and ease of operation.** The cutting shears offer substantial labor savings vs. power band saw cutting.
- **Portable and easy to move.** Small compact size offers the convenience of easy portability.
- **Square cut every time.** Creates consistent square cut ends for reduced cover-to-device plate seams.
- **Limited deburring.** Shearing action is so smooth, there is a reduced need for deburring edges.
- **Manual operation.** Total manual operation, no power source required.
- **Quality construction.** Constructed of sturdy, heat-treated tool steel components.
