

A close-up photograph of a black industrial punch tool. The tool has a textured, ribbed handle on the left and a smooth, rectangular head on the right. A green outline highlights the tool's shape. In the center, there is a large yellow '3X' graphic with the words 'UP TO' and 'FASTER\*' integrated into it.

**UP TO**  
**3X**  
**FASTER\***

***SAVE TIME***  
***AND MONEY WITH***  
***EVERY PUNCH!***

**It's  
as  
simple  
as!**

**UP TO  
3X  
FASTER\***

\* Compared to standard threaded punch & draw stud set-up and disassembly.

**1 SLIDE**

Slide die and punch onto draw stud: "No-thread" design eliminates cross-threading.

**2 SECURE**

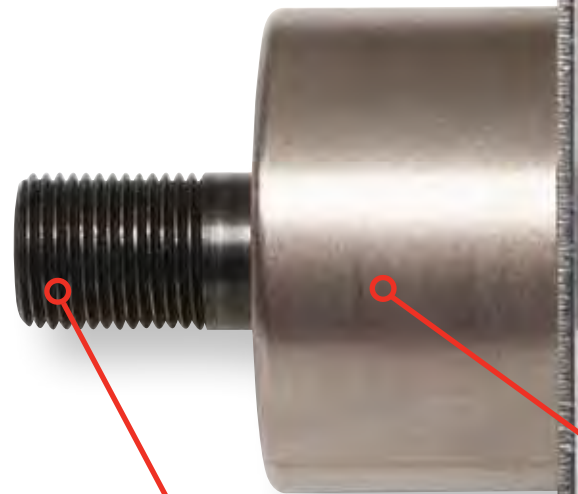

Secure SPEED LOCK onto draw stud: Faster setup and disassembly.

**3 PUNCH**

Punch hole: Save time and money with every punch!

**Standard draw stud end:** Works with your existing hydraulic and battery-operated punch drivers.

**Use with the LS50 battery-operated driver for the ultimate in speed and performance.**

Made For the Trade!<sup>™</sup>

# **SAVE TIME AND MONEY WITH EVERY PUNCH!**

From the leaders in knockout technology comes the new SPEED PUNCH<sup>™</sup> System. The patent pending “no-thread” design eliminates cross-threading, while the innovative SPEED LOCK mechanism quickly secures the punch in place. This means longer tool life and faster punches, saving you time and money on the job. SPEED PUNCH<sup>™</sup> is available in 3/4” - 2” conduit sizes and three kit configurations.

**Matched die heights eliminate need for additional spacers:**

*Fewer extra parts to lose on the job site.*

**Rugged, durable grooves hold up on the job:**

*No more thread damage and costly down time.*

**“No-thread” punch design quickly and easily slides on/off draw stud:**

*The fastest punch system on the market today.*

**SPEED LOCK mechanism quickly secures the entire system in place:**

*Punch more holes in less time.*
