| Features               | Eaton's Solar Power Centers feature industry-exclusive, factory-installed permanent markings, which help to ensure National Electrical Code (NEC) compliance and provide additional flexibility in PV sizing. The wide variety of configurations includes loadcenters and meters breakers, and becomes an all-in-one for both utility power and solar photovoltaic (PV) power. This all makes Eaton's Solar Power Centers not just the most complete line of Balance of System products, but also makes possible quick and ea |
| Long Description       | Eaton BR solar-ready loadcenter,Type BR loadcenter,L2R,Copper,225,Ampere,Cover included,NEMA 3R,70 max PV,35 kAIC,200 A type CSR,42 Circuits,42 Spaces                                                                                                                                                                                                                                                                                                                                                                        |
