

# SYLVANIA Micro-Mini Twist

## Electronic Compact Fluorescent Lamps

SYLVANIA self-ballasted medium and candelabra base Micro-Mini Twist compact fluorescent lamps are energy saving alternatives to incandescent and halogen lamps delivering higher efficacy and longer life. Due to their reduced T2 tube diameter design, Micro-Mini Twists are the smallest CFL lamps available making them suitable for use in more luminaires. Unlike warm incandescent sources, they are available in a variety of color temperatures from warm (2700K) to daylight (6500K) choices with excellent color rendition.

### Key Features & Benefits

- Energy savings up to 78% compared to similar lumen output incandescent
- Compact T2 tube design with maximum overall length less than 4.5 inches (114 mm)
- Long life: 10,000 -12,000 hours average rated life
- Instant on, flicker-free
- Multiple color temperatures, 80-82 CRI
- Living spaces versions (LS) have enhanced rendition of the strong red (CIE-R9) generating richer, warmer red color tones closely matching incandescent
- TCLP-compliant to meet sustainability objectives

### Product Offering

Base	Wattage	Replaces Incandescent	CCT
Medium	13W	60W	2700K, 3000K, 4100K, 5000K, 6500K
	20W	75W	2700K, 3000K
	23W	100W	2700K, 3000K, 4100K, 5000K, 6500K
Candelabra	13W	60W	3500K

### Application Information

#### Applications

- Chandeliers
- Decorative fixtures
- Floor lamps
- Sconces
- Security lighting
- Table lamps
- Vanity lights

#### Application Notes

1. Do not install on dimming circuits.
2. Outdoor use only in enclosed fixtures to avoid exposure to weather.
3. Do not use in emergency exit fixtures.
4. Meets CSA, FCC and UL requirements.
5. Use only 120V AC, 60Hz circuit.
6. Install and remove lamps from fixture by handling plastic base, not lamp glass.
7. Best performance achieved at 77°F/25°C.
