	protection. The Type CH circuit breakers trip to the OFF position,		
	eliminating nuisance callbacks. The CHF family also includes a trip		
	flag to differentiate between a trip and the breaker being turned		
	off. The thermal-magnetic trip curve avoids nuisance tripping on		
	mild overloads while reacting almost instantaneously to severe		
	short-circuit conditions. Multiple breakers have an internal		
	common trip connection to operate all poles simultaneous
