These switches offer excellent value while meeting federal specification standards. External screw-pressure-plate back wiring enables fast installation and superior electrical connections. Rugged construction shrugs off hard use and abuse.

## Features & Benefits

**One-piece plated steel strap** for corrosion resistance

**Heavy-duty bumpers** for quiet, smooth operation

**Oversized silver-alloy contacts** for long life and better heat dissipation

**Heavy-duty, brass alloy, one-piece contact arm** virtually eliminates contact bounce

**Shallow design** for easier installation

**Glass-reinforced nylon back body** for durability and strength

**Locking support** provides resistance to face and back body separation

**Side and external screw-pressure-plate back wire** with #14 – #10 AWG copper or copper-clad wire

**Cam control and spring actuator** for positive “makes and breaks” with a minimum of arcing
