DESCRIPTION

All-Pro™ recessed housings are suitable for both commercial and residential applications. The wide variety of trims available allows a number of different lighting effects to be created with one basic housing. The El700ATNB is for installations where the housing will be in direct contact with insulation. Additionally, the El700ATNB housing meets restricted air flow requirements.

APPLICATION

These housings are designed to save installation time. They are designed without a socket plate for use with socket supporting trims only. With these trims there is no need to spend time disconnecting the socket and removing the socket plate.

DESIGN FEATURES

A...Housing

Aluminum construction for greater heat dissipation.

B...Plaster Frame

Housing adjusts in plaster frame 1 3/8" to accommodate different ceiling thicknesses.

C.-.Junction Box

U.L. listed for through branch circuit wiring. Positioned to accommodate straight conduit runs. Seven conduit knockouts are uniform 1/2" size with true pryout slots. Four Romex pryouts with integral strain relief also included. Quick-connect wiring connectors included.

D...Bar Hangers

Pre-installed, captive bar hangers allow housing to be positioned at any point within a 24" joist span. Score lines provided for easy field shortening for 12" joists. Unique arrowhead design provides "nailess" installation. Bar hangers can be repositioned 90° without tools on plaster frame. Bar hangers can be locked in position with lock down screw and/or crimping tabs.

E...Socket

Porcelain socket with nickel plated brass screw shell, snaps into trim for consistent lamp positioning.

F…Thermal Protector

Self resetting thermal protector deactivates fixture if overheating occurs due to improper lamping.

Labels

- UL Listed for Damp Location
- UL listed for Feed Through
- UL listed for Direct Contact with Insulation and combustible material
- CSA Certified

Meets following requirements:

- State of California Title 24
- Washington State Energy Code
- International Energy Conservation Code (IECC)
- New York State Energy Conservation Construction Code (NY-ECCC)
- Model Energy Code (MEC)
- Certified Under ASTM-E283
