

DESCRIPTION

The Enterprise 22 industrial low-bay luminaire combines a round, faceted reflector with an injection-molded lens to provide an efficient, symmetrical beam pattern. U.L. listed and labeled for damp location. CSA Certified. The Enterprise 22 combines durable construction with precise optics for mounting heights below 20'. Perfect for warehouses, foundries, gyms, assembly areas, food processing plants and hangars.

SPECIFICATION FEATURES

Construction

HOUSING: Heavy-duty, formed steel housing with an open air ballast for cooler operation is finished in a white polyester powder coat.

Electrical

BALLAST: High power factor ballast with class H insulation. Minimum starting temperature is -40°C (-40°F) for HPS and -30°C (-20°F) for MH. **SOCKET:** Mogul-base porcelain socket standard for HPS.

For Metal Halide, protected socket standard, for use with "0" (Open) rated protected Metal Halide lamps only.

Optical

SEALED OPTICS: Enclosed and gasketed optics seal out dirt and other contaminants. **REFLECTOR:** Computer designed, faceted reflector provides maximum photometric performance. **HANDS-FREE RELAMPING:** Trunk latches secure the reflector to the housing,

allowing toolless entry, while internal hangers hold reflector/refractor for hands-free relamping. **LENS:** 100% virgin UV stabilized acrylic refractor.

Mounting

Easy slide-on die-cast aluminum mounting box with tapped opening for 3/4" conduit.
