| Features               | Liquidtight fittings from Eaton's Crouse-Hinds Division are designed to protect conductors from mechanical damage due to vibration and movement while sealing out cutting oils, coolants, water, and dust. Typical applications include the wiring of machine tools, motors, transformers, food processing equipment, robotics, air conditioning units and illuminated signs. To meet any customer preference, Crouse-Hinds series liquidtight fittings are available in a variety sizes, configurations and materials, inclu |
| Long Description       | Eaton Crouse-Hinds series Liquidator liquidtight connector, FMC, Straight, Non-insulated, Aluminum, 3"                                                                                                                                                                                                                                                                                                                                                                                                                        |
