| extra long description | ETN M22-R4K7 POTENTIOMETER SIL-BZL                                                                                                                                                                                                                                                                                                                                                   |
| Features               | This attractive, functional line of pushbuttons features a space-saving construction that enables fast assembly. The complete illuminated M22 line offers LED light units to ensure high-quality brightness and up to 100,000 hours of illumination. Because of the rugged design of these pushbuttons, most operators and contact blocks exceed five million mechanical operations. |
| Long Description       | M22 Potentiometer, 22.5 mm, Knob, Bezel: Silver, Black, IP20, Quantity: 25                                                                                                                                                                                                                                                                                                           |
