

powerswitch® Industrial Switches & Motor Controls

SELECTION GUIDE

powerswitch®

Manual Motor Controllers

OVERVIEW

Powerswitch® industrial grade AC Manual Motor Controllers provide safe, reliable control of a variety of motor loads. Suitable for use as motor disconnect*, these switches are available for both single-phase and three-phase applications, with a continuous current rating at voltages up to 600 VAC and maximum horsepower ratings of 30 hp. Metallic and non-metallic enclosures are available, including NEMA Type 1, Type 3R, and Type 4X, to suit a wide variety of applications.

* 30 A & 40 A only

Component Switches

30 A, 40 A, 60 A

							Front	Standard	Black	MS602-FW
		3-Pole (3Ø)	—	10	25	30	Back	Standard	Black	MS603-BW
							Front	Standard	Black	MS603-FW

FEATURES

- All molded parts are thermoplastic to resist impact, chemicals, temperature, tracking and arcing
- Cam-driven mechanism enhances fast-make/slow-break
- Listed to UL 60947-4-1 (formerly UL 508)
- Silver-alloy contacts for maximum conductivity and service life
- 30 A and 40 A switches feature external clamps for back and side wiring; 60 A switches available in front-wire or back-wire versions
- Insulating barrier between terminals provide isolation between phases
- Nickel-plated brass mounting strap, terminal screw and external clamps for superior strength and corrosion resistance
- Oversized toggle provides positive actuation, even with gloved hand
- Short toggle versions (DSS) available in 30 A and 40 A for when shorter depth is required
- Backed by a Limited Ten-Year Warranty
- 30 A standard toggle versions (DSW) available in white

powerswitch®

Safety Disconnect Switches

OVERVIEW

Powerswitch® safety disconnect switches are designed for superior performance in food and beverage processing, manufacturing, marinas and shipyards, and OEM applications. Available in both stainless steel as well as PBT enclosures these devices are built to withstand the rigors of harsh environments, addressing the needs for safety, washdown procedures, reduced downtime and code compliance. All Powerswitch safety disconnect switches are backed by an industry leading 3 year warranty.

Stainless Steel Disconnect Switches

Slope Top 30/32 A, 60 A, Non-Fused

Flat Top 30/32 A, 60 A, 80 A, 100 A, Non-Fused

FEATURES

- Type 304 stainless steel resists heat, corrosion and abuse
- Watertight, dust-tight, submersible and suitable for high pressure, high temperature washdown
 - IP66, IP67, IP68 and IP69K
 - UL 50E Type 3R, 4X, 12, 13
- Slope top versions feature a 15° slope towards wall, pushing water and debris away from door, handle, gasket and front of device (30/32 A and 60 A versions only)
- Overmold handle provides firm grip, durability and withstands washdown
- Handle accommodates 3 padlocks for OSHA compliant lockout/tagout
- Removable cover door makes installation and servicing simple and quick
- NSF Certified for hygiene requirements in food & beverage processing
- ¾" standoff from mounting surface allows for easy cleaning

powerswitch® Safety Disconnect Switches

All Powerswitch safety disconnect switches from Leviton are certified to NSF International hygiene requirements for food & beverage processing to help ensure public health and safety. Manufacturers, regulators and consumers look to NSF International for the development of public health standards and certification programs that help protect the world's food, water, consumer products and environment.

Non-Metallic Disconnect Switches 30/32 A, 60 A, 100 A, Fused & Non-Fused

FEATURES

- PBT enclosure resists impact, abuse and corrosion
- Watertight, dust-tight, submersible and suitable for high pressure, high temperature washdown
 - IP66, IP67, IP68, IP69 and IP69K
 - UL 50E Type 3R, 4, 4X, 6P, 12, 13
- Curve top versions push water and debris away from door, handle, gasket and front of device (30/32 A only)
- Overmold handle provides firm grip, durability and withstands washdown
- Handle accommodates 3 padlocks for OSHA compliant lockout/tagout
- NSF Certified for hygiene requirements in food & beverage processing
- Operating temperature ranges from -40°C to 75°C (-40°C to 65°C for Inform units)
- Captive, triple head cover screws constructed of stainless steel

Condition Monitoring

24/7 access to data like current, liquid accumulation, enclosure temperature and humidity, ground continuity, individual line- and load-side voltage values, and more.

Understand what's going on inside your devices without having to open them, improving safety, predictive maintenance, and minimizing unplanned downtime.

Does your facility use
Mechanical Interlocks?

ALSO AVAILABLE WITH INFORM!

Real-time diagnostics
help to reduce
unplanned downtime

In addition to local LED indicators,
remote monitoring allows for 24/7
access to device data, such as:

- Liquid accumulation
- Enclosure temperature and humidity
- Line- and load-side voltage values
- Ground continuity
- And more
