RJS510FT Rejacketing Sleeve RJS-5, 10'

Minnesota Mining (3M)

Catalog Number	RJS510FT
Manufacturer	Minnesota Mining (3M)
Description	3M™ Rejacketing Sleeve Provides Reliable Safety and Protection to The Phase Legs Of 3/C Shielded, Medium Voltage Power Cables From Termination Operating Environments. Incorporated With A Silicone Rubber Insulator and Polyester Braid, This Sleeve Is Resistant to Uv Rays, Ozone, Corrosion and Moisture. It Is Designed For Use With 3M Cold Shrink QT Ii and QT Iii, Silicone Rubber Terminations.
Weight per unit	2.3 (lbs/each)
Product Category	Insulating Materials

Descriptions

Description	REJACKETING SLEEVE RJS-5, 10'
extra long description	3M 7000132763 3M™ Rejacketing Sleev
Features	3M™ Rejacketing Sleeve works in combination with cold shrink breakout boots and silicone rubber terminations. It is ideal for tape shield, wire shield, armored and non armored power cables. The rejacketing sleeves are designed to protect the phase legs from exosure to: moisture, corrosion, ozone, ultra violet radiation and other hazards associated with termination operating environments. Easy to adjust length, the sleeve conforms to varied equipment connections and mounting requirements.
Long Description	3M™ Rejacketing Sleeve provides reliable safety and protection to the phase legs of 3/C shielded, medium voltage power cables from termination operating environments. Incorporated with a silicone rubber insulator and polyester braid, this sleeve is resistant to UV rays, ozone, corrosion and moisture. It is designed for use with 3M Cold Shrink QT II and QT III, Silicone Rubber Terminations.
Product Type	3M™ Rejacketing Sleeves RJS Series
