

A long wooden pier extends into a harbor at dusk. The pier is made of dark, weathered wooden planks. On the right side, there is a white metal railing with a thick white handrail. Several warm, glowing lights are mounted on the railing, illuminating the pier. In the background, there are buildings, including a dark two-story building with white trim and a red roof, and several boats docked at the pier. The sky is a deep blue, and the water reflects the lights and the buildings.

Extra Duty While-in-Use Covers

TP7488XD

TP7488XDW

TP7487XD

TP7489XD

Applications:

- Commercial and residential landscape lighting, vending machines, etc.
- Seals out moisture and sheds water, ice and snow
- Meets or exceeds outdoor low voltage requirements

Description:

- 1-gang easy-to-close cover for horizontal applications
- 1-gang easy-to-close cover for vertical applications
- 2-gang easy-to-close cover for either horizontal or vertical applications

Features:

- Meets NEC® and CEC® extra duty requirements for any application
- Rugged UV-resistant polycarbonate cover and back protects devices without cracking or breaking and is non-corrosive
- Robust design with stainless steel reinforced hinge
- Easy-to-close padlockable cover
- Box inserts accommodate decorator and GFCI devices, duplex receptacles, and a variety of single receptacle sizes and toggle switches
 - 1-gang box includes 3 inserts for 8 different configurations
 - 2-gang box includes 4 inserts for over 60 different configuration
- Cover cord opening fits #12 AWG or small gauge
- Cover depth is 3-1/4"
- Box cover includes pre-mounted gasket
- Listed for use in wet locations

Certification and Compliances:

- cULus Listed to UL514D
- UL File # E-102328
- Meets 2014 NEC® 406.9 and CEC® Rule 26-702
- NEMA 3R

Standard Materials & Finishes:

- Clear cover, body and cover plates – polycarbonate
- Gasket – ethylene vinyl acetate (EVA)
- Hinge pin – stainless steel

Extra Duty While-in-Use Weather Protective Covers
